

Freddy Ecovac

Leading the way in coolant recycling 

The Freddy Ecovac is unique in the Freddy coolant recycling vacuum family as it is the only vacuum to vacuum out and recycle the coolant continuously, using an independent pump for return. The Freddy Ecovac is designed to vacuum out coolant from machine tool sumps, machine beds, drip trays, conveyors and even the shop floor with the dedicated floor tool and recycle it for re-use.

- Recycles coolant and extends coolant life
- Enhances coolant performance and production quality
- Significantly reduces coolant usage
- Improves and extends tool life
- Extensively cuts waste disposal costs
- Removes contaminants that cause bacterial growth
- Complete with 24 month warranty

Specification

- 200 or 300 litre tank capacity
- Finished in oil and acid resistant powder coated paint
- 37 litre perforated steel filter basket
- Complete with full set of tools and hoses

Ecovac Models

Capacity: 200ltr | Length: 1210mm | Width: 697mm | Height: 1350mm

Power unit	# of phases	Weight (empty)	Weight (full)*	airflow	water flow in	water flow out
2kw 240v	1	115	315	2200	270	80
2kw 110v	1	115	315	2100	260	75
3kw 240v	1	130	330	3000	290	80
3kw 110v	1	130	330	2800	280	75
4kw 415v	3	165	365	4000	300	80

Capacity: 300ltr | Length: 1405mm | Width: 730mm | Height: 1350mm

Power unit	# of phases	Weight (empty)	Weight (full)*	airflow	water flow in	water flow out
2kw 240v	1	135	435	2200	270	80
2kw 110v	1	135	435	2100	260	75
3kw 240v	1	150	450	3000	290	80
3kw 110v	1	150	450	2800	280	75
4kw 415v	3	185	485	4000	300	80

Freddy Service agreement

All of our Freddy coolant vacuums come with a 24 month warranty and 12 month service agreement as standard, so you get:

- Two service visits per year - inclusive of labour and travel
